18 Appendix 7

1 Executive Summary

A short, non-technical summary describing the business need, expected value, stakeholders, and high-level deliverables. Keep it concise (3–6 sentences).

2 Business Objectives & Goals

List measurable and time-bound objectives. Use SMART where possible.

- Objective 1: e.g., Increase signup conversion by 15% within 6 months.
- Objective 2: e.g., Reduce manual order processing time by 40%.

3 Background & Problem Statement

Describe the current situation, pain points, market context, and why the initiative is needed. Include supporting data and references if available.

4 Scope

4.1 In Scope

- Feature / area A
- Feature / area B

4.2 Out of Scope

- Items explicitly excluded from this release/project

5 Stakeholders & Roles

Role	Name / Team	Responsibility
Business Sponsor		Approve budget and priorities
Product Owner		Define requirements; accept deliverables
Development Lead		Delivery technical decisions
QA Lead		Test strategy and acceptance

6 Business Requirements (BRs)

List high-level, non-technical business requirements. Number them BR-001, BR-002, etc. For each include rationale, priority, success criteria and assumptions.

Example BR entry

ID	BR-001
Title	Increase mobile signup conversion
Description / Business Need	Improve the signup funnel on mobile to increase conversions from X% to Y%.
Rationale / Business Value	Higher conversion increases revenue and user base; reduces CAC.
Priority	High
Success Criteria / KPI	Mobile signup conversion increases by 15% within 3 months of launch.
Assumptions	Analytics events are available and accurate.

7 Business Impact & Benefits

Quantify benefits and impacts (revenue uplift, cost savings, CSAT improvements). Provide timeframe and assumptions for estimates.

8 High-Level Cost & Budget

Provide a high-level estimate or budget breakdown (development, infra, third-party, marketing). Optionally include a simple table of costs.

9 Constraints

Business, legal, regulatory, or technical constraints (e.g., launch date, compliance, platform restrictions).

10 Dependencies

List internal/external dependencies, owners, and expected delivery dates.

Dependency	Description / Owner	ETA
Payment gateway integration	Vendor / Payments team	2025-10-15

Table 2: Dependencies

11 Assumptions

List assumptions that underpin business cases, timelines, and scope.

12 Risks & Mitigation

List major risks, probability, impact, and mitigation plan.

ID	Risk	Probability	Impact	Mitigation
R-001	Delay in third-party API integration	Medium	High	Start integration early; choose fallback gateway

Table 3: Risks and Mitigations

13 Success Metrics / KPIs

List KPIs to measure business success (link to dashboards if available).

- KPI-1: Mobile signup conversion (baseline X%, target X+15%)
- KPI-2: Time to process support requests (baseline Y mins, target Y*0.6)

14 Acceptance Criteria

High-level acceptance criteria the business will use to accept the project. These should map to BRs and KPIs.

15 Reporting & Communication Plan

How progress, risks, and outcomes will be reported (status cadence, stakeholders, dashboards).

16 Timeline & High-Level Roadmap

Major milestones and target dates. Use a simple table or external Gantt chart for more detail.

Milestone	Target Date
MVP Delivery	2025-11-01
Beta Launch	2025-12-01

Table 4: High-level roadmap

17 Approval & Sign-off

Space for stakeholder signatures and dates.

Business Sponsor: _____ Date: _____

Product Owner: _____ Date: _____

18 Appendix
