9 Release Plan & Rollout Strategy 4

10 Dependencies 4

11 Open Questions 4

12 Appendices 4

Revision History

Version	Date	Summary	Author
1.0	September 11, 2025	Initial draft	Your Name

1 Executive Summary

High-level purpose, value proposition, business context, stakeholders.

2 Goals & Success Metrics

- Business goals (e.g., increase retention by 15%).
- Success metrics / KPIs (e.g., DAU, conversion rate, latency percentiles).

3 Scope

In-scope items / out-of-scope items (be explicit).

4 User Personas & Journeys

Short persona table and main user journeys (happy path + edge cases).

5 Features (Prioritized)

For each feature:

- **ID:** PRD-FNN
- **Name:**
- **Summary:**
- **Priority:** Must/Should/Nice
- **Acceptance Criteria:** (atomic, testable bullets)
- **UX Notes / Mockups:** include images or links
- **Metrics:** which KPI this affects

6 User Flows & Wireframes

Include diagrams/images: `\includegraphics[width=\textwidth]{flow.png}`

7 Constraints & Assumptions

Tech constraints, legal/regulatory, time, integrations.

8 Risks & Mitigations

List key risks and mitigation strategies.

9 Release Plan & Rollout Strategy

Phases, beta cohorts, feature flags, rollback plan.

10 Dependencies

Internal and external dependencies (APIs, teams, services).

11 Open Questions

List outstanding decisions and owners.

12 Appendices

Glossary, links to SRS, SAD, test plans.
